Domain & Range

Domain - the set of first elements in a relation

Animal	Number of legs
Duck	2
Horse	4

fruit: color.
 (apple, red)
 (banana, yellow)
 (grape, purple)

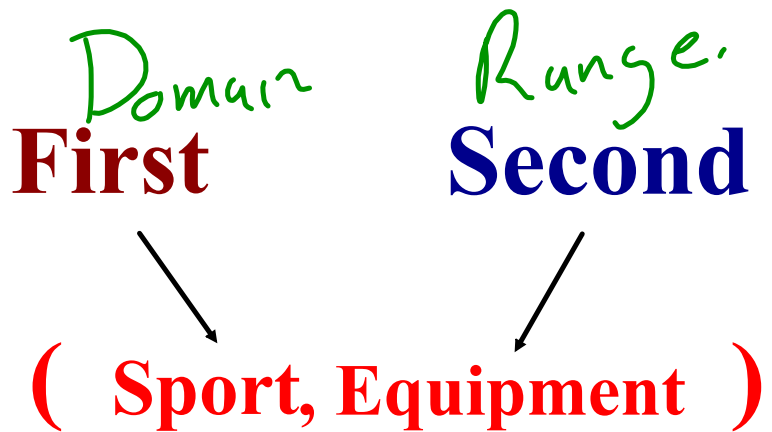

Range - the set of second elements in a relation

Animal	Number of legs
Duck	2
Horse	4

(apple, red)
 (banana, yellow)
 (grape, purple)

<u>Sport</u>	<u>Equipment</u>
badminton	shuttlecock
badminton	racquet
hockey	puck
hockey	stick
tennis	ball
tennis	racquet
soccer	ball

Domain

Range

The set of first elements:
 { badminton, hockey, tennis, soccer }

The set of second elements:
 { shuttlecock, racquet, puck, stick, ball }

Domain

The first set of elements:

{bicycle, car, motorcycle, tricycle, unicycle}

Range

The second set of elements:

{1, 2, 3, 4}

Remember!!

(x, y)

Ordered Pairs:

$\left\{ \begin{array}{cc} \text{1st} & \text{2nd} \\ \downarrow & \downarrow \\ (1, 1) \end{array} \right\}, \left\{ \begin{array}{cc} \text{1st} & \text{2nd} \\ \downarrow & \downarrow \\ (3, 2) \end{array} \right\}, \left\{ \begin{array}{cc} \text{1st} & \text{2nd} \\ \downarrow & \downarrow \\ (5, 3) \end{array} \right\}, \left\{ \begin{array}{cc} \text{1st} & \text{2nd} \\ \downarrow & \downarrow \\ (7, 4) \end{array} \right\}, \left\{ \begin{array}{cc} \text{1st} & \text{2nd} \\ \downarrow & \downarrow \\ (9, 5) \end{array} \right\} \right\}$

Domain The set of first elements: $\{1, 3, 5, 7, 9\}$

Range The set of second elements: $\{1, 2, 3, 4, 5\}$

Domain

$\text{Min} = -4$
 $\text{Max} = +3$
 $(x | -4 < x \leq 3, x \in \mathbb{R})$

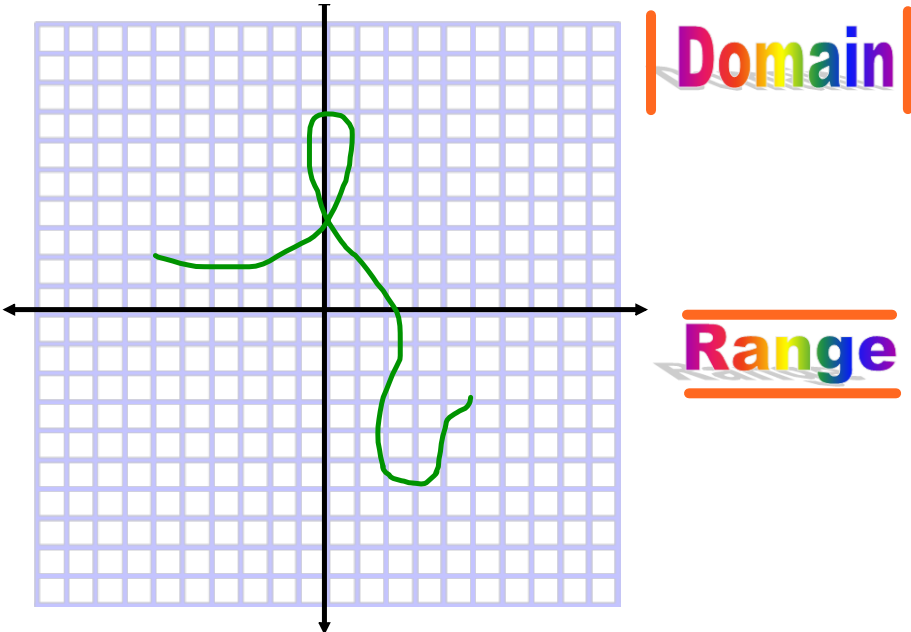

Range

$\text{Min} = 1$
 $\text{Max} = 5$
 $(y | 1 \leq y \leq 5, y \in \mathbb{R})$

Domain $\min = -4$
 $\max = 5$
 $(x) -4 \leq x \leq 5, x \in \mathbb{R}$

Range
 $\min = -5$
 $\max = 4$
 $(y) -5 \leq y \leq 4, y \in \mathbb{R}$

Domain

$M_{\text{min}} = -5$
 $M_{\text{max}} = +\infty$
 $(X | -5 \leq X | +\infty, \text{ real})$

Range

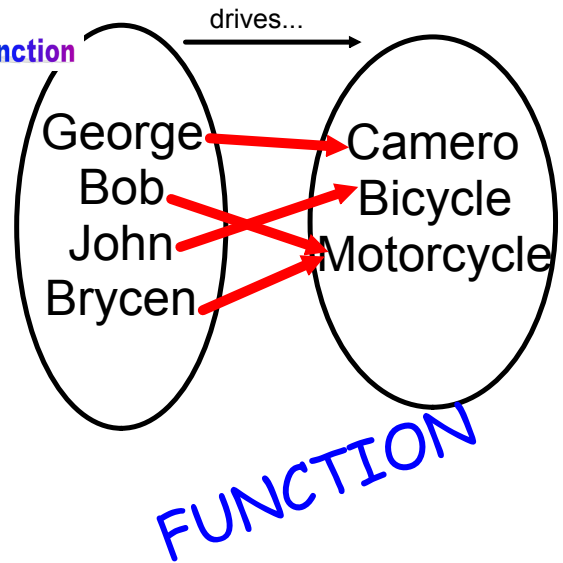

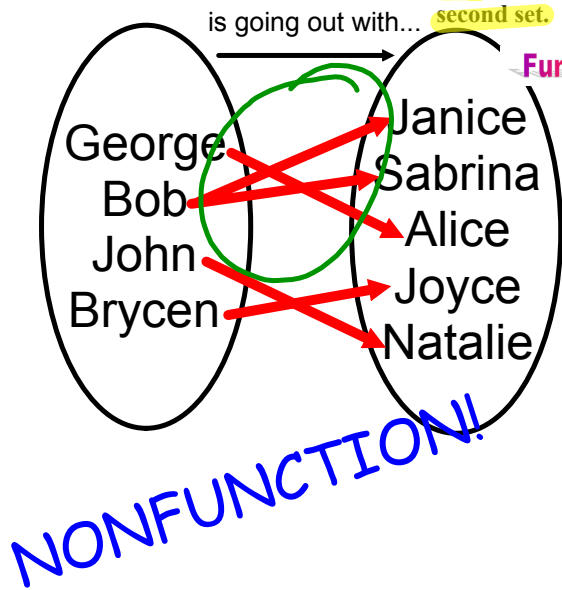

$y = \text{max} = +5$
 $(y | -\infty \leq y \leq 5, \text{ real})$

Function or Nonfunction

A relation where each element in the first set is associated with one and only one element in the second set.

A relation where each element in the first set is associated with one and only one element in the second set.

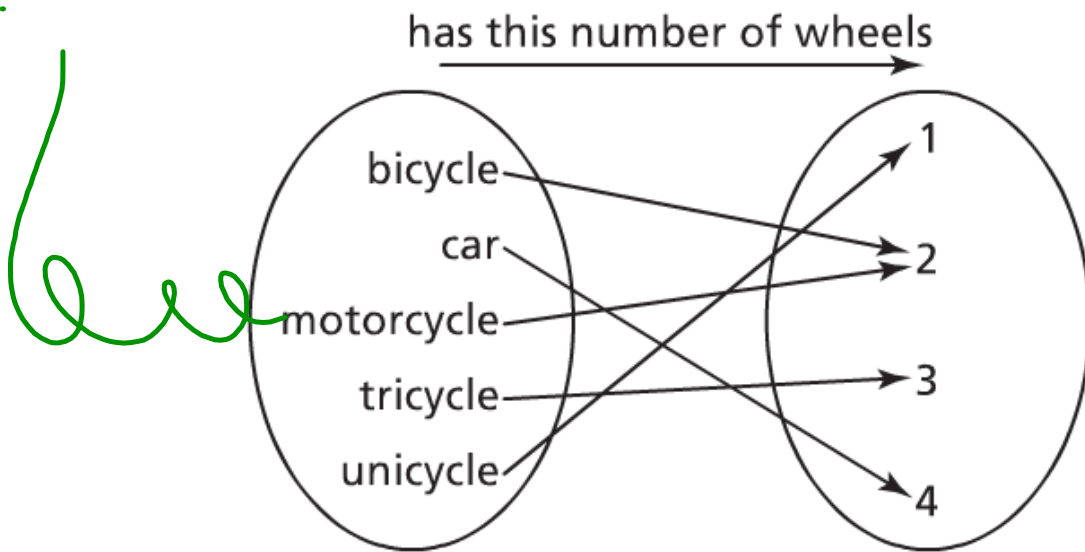

Sport	Equipment
badminton	shuttlecock
badminton	racquet
hockey	puck
hockey	stick
tennis	ball
tennis	racquet
soccer	ball

hi
Lobban!

Function.

Function or Nonfunction

Function or Nonfunction

$\{ (2, 5), (3, 7), (4, 2), (2, 6), (8, 0) \}$

Not a function.
Looking for
Repeating
x's.

Function or Nonfunction

one arrow for each first element

Function or Nonfunction

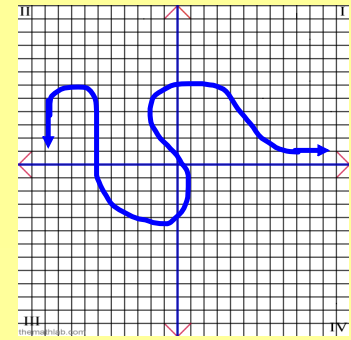

Function or Nonfunction

Use the vertical line test!!

Function or Nonfunction

Independent / Dependent

Time continues
no matter
what happens.

The amount of money I save **depends**
how much I put away.

Independent / Dependent

Dependent

- a variable whose value is determined by the value of another (independent) variable.

Independent

- a variable whose value is not determined by the value of another variable, and whose value determines the value of another (dependent) variable

Independent Variable

- Hours do not depend on the person's pay.

Dependent Variable

- A person's pay often depends on the number of hours worked.

Hours Worked, h	Gross Pay, P (\$)
1	12
2	24
3	36
4	48
5	60

Page 270

#'s 4,6,7,8,9,

~~10,11~~,14,15,16

<u>Hours Worked, h</u>	Gross Pay, P (\$)
1	12
2	24
3	36
4	48
5	60

Let's write the function notation

$$P(h) = 12h$$

What is the person's pay after 20 hours? $P(20)$

$$\begin{aligned} P(20) &= 12(20) \\ &= \$240 \end{aligned}$$

$$x=20 \quad y=240$$

Function Notation...

$c(x) = 5x - 2$

$a(x) = 20 - x$

$t(x) = 3x + x$

4.3

Evaluate: x

$t(7)$

$f(7) = 3(7) + 7$

$t(7) = 21 + 7$

$f(7) = 28$

$x=7 \quad y=28$

$c(x) = 153$

$c(x) = 5x - 2$

$2 + 153 = 5x - 2$

$155 = 5x$

$\frac{155}{5} = \frac{5x}{5}$

$x = 31$

$c(11)$

$c(x) = 5x - 2$

$c(11) = 5(11) - 2$

$c(11) = 55 - 2$

$c(11) = 53$

$x=11 \quad y=53$

Try This!!

Number of Marbles, n	Mass of Marbles, m (g)
1	1.27
2	2.54
3	3.81
4	5.08
5	6.35
6	7.62

- State the domain & Range.
- Is this relation a function?
- State the dependent and independent variables.
- Write the function notation.

Solution:

a) Domain: { 1, 2, 3, 4, 5 }

Range: {1.27, 2.54, 3.81, 5.08, 6.35, 7.62}

b) Function

c) Independent - number of marbles

Dependent - Mass

d) $C(n) = 1.27 n$
