

Warm Up

Draw an electron dot structure and structural diagram for the following:

a) PF_3

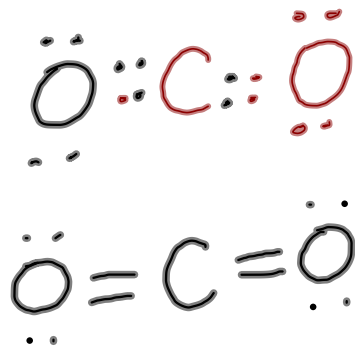

b) CH_3OH

Double covalent bond

Two shared pairs of electrons

Triple covalent bond

Three shared pairs of electrons

Coordinate Covalent Bonds

CO

Coordinate Covalent Bond

A covalent bond in which one atom contributes a shared pair of electrons.

- Coordinate covalent bonding is common in polyatomic ions.

NH_4^+

SO_3^{2-}
