

# Warm Up

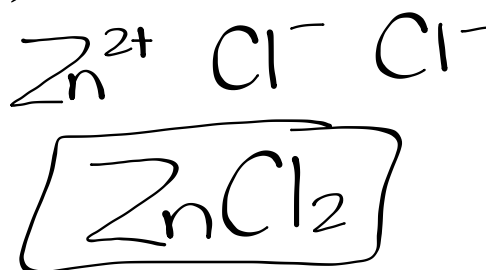

Write the chemical formula of the following ionic compounds:

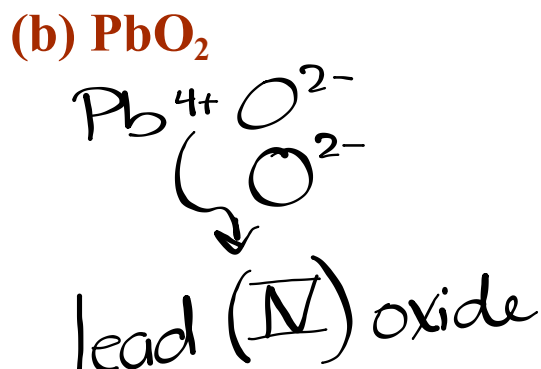

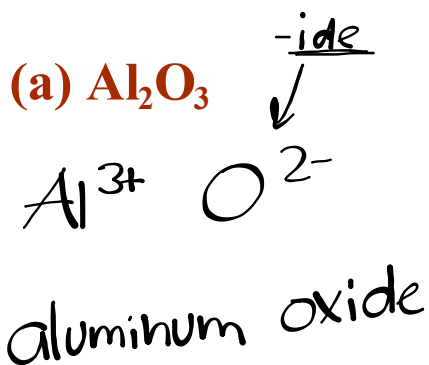

(a) iron (II) sulfide

(b) zinc chloride

Write the name of the following ionic compounds:

## Check Homework

Write the chemical formula of the following ionic compounds:

(a) iron (II) oxide  $\text{FeO}$

(b) lead (IV) chloride  $\text{PbCl}_4$

---

Write the name of the following ionic compounds:

(a)  $\text{Fe}_2\text{O}_3$  iron(III)oxide

(b)  $\text{PbO}$  lead(II)oxide
