

Global Weather - Mid Chapter Review

- Use the terms convection, radiation and conduction to describe how heat energy is transported:
 - > From the Sun?
 - > Within Earth's Oceans?
 - > Through the Earth's surface?
 - > Within the Earth's atmosphere?
- Explain the Coriolis effect and describe one effect it has on the weather.
- Page 540 #'s 1 - 3, 5 - 6, 8 - 12.
